

Tree Top, Inc. Facility Information

Tree Top is an agricultural cooperative owned by more than 1,000 apple and pear growers throughout Washington, Oregon and Idaho. Tree Top is the leader in the fruit processing industry. Our Corporate Headquarters are located in Selah, WA, in the heart of Washington's apple country. Below is a listing of our facilities.

Selah Plant

205 South Railroad Avenue, Selah, WA 98942 Phone: 509-698-1430, Fax: 509-698-1477

The Selah Plant is Tree Top's largest retail packaging facility. This manufacturing location has nine production lines and 450,000 sq. ft. of manufacturing and warehouse space. This facility not only packages PET, polypro, aluminum, and aseptic for our brand, it also contract manufactures beverages for other national brands. While beverages are the facility's major activity, it also produces apple sauce in 4 oz., 2.4 oz., 24 oz., 48 oz., and 5 gallon bag-in-box for our Tree Top and Seneca brands.

Ross Plant

101 South Railroad Avenue, Selah, WA 98942 Phone: 509-698-1432, Fax: 509-698-1417

The Ross Plant is one of two Tree Top dried fruit manufacturing facilities and produces evaporated and low moisture apples, as well as drum dried fruits. The facility produces dried apples in many sizes, from rings to 1/8" x 1/8" apple chips, and offers a wide range of specialty infused apples. The operations team at our Ross facility also oversees the operation of our fresh sliced apple processing plant. The Fresh Slice Plant processes fresh apple slices and chunks used in the retail and Foodservice industry.

Wenatchee Plant

3981 Chelan Hwy, Wenatchee, WA 98801 Phone: 509-663-8583, Fax: 509-667-7190

The Wenatchee Plant is an 80,000 sq. ft. production facility situated along the Columbia River. This plant manufactures "Individually Quick Frozen" (IQF) apples, solid pack, and sugar-capped apples, which are mainly used by the baking industry. In addition, this plant produces low moistures apples in numerous fruit flavors for use in cereal and snack bar products. It is also home to our fruit "puffing" operation, which alters the texture of an apple piece by forcing air into the cellular structure, giving it the texture of a potato chip.

Prosser Plant was acquired from Seneca Foods in February 1999. This manufacturing facility mainly produces Concord grape, blackberry, cherry, peach, plum, raspberry, apple, and pear juice concentrates. With 4.9 million gallon storage capacity, this facility produces various flavor blends of juice concentrates. The Prosser plant also processes "Individually Quick Frozen" (IQF) cherries, which include Bings, Vans, and Lamberts. They also package some of our retail products, such as composite frozen 3+1 and 5+1 juice, sauce tubes, and RTD 46 oz. juice in tin cans.

Oxnard Plant

1250 E. 3rd Street, Oxnard, CA 93030 Phone: 805-483-3030, Fax: 805-240-7703

The Sabroso Company and the Oxnard facility was a wholly-owned subsidiary from October 2008 until August 2010 when the Sabroso branded products and manufacturing facilities were integrated into the Tree Top family of fruit offerings. The facility creates ingredients for the food manufacturing industry such as puree, whole and sliced fruit, heat treated, non-heat treated, or frozen. These ingredients are used in many items such as ice cream, yogurt, bakery, and drinks. The facility employs approximately 50 employees who operate three processing lines including a fresh strawberry line.

Medford Plant 690 S. Grape Street, Medford, OR 97501 Phone: 541-772-5653, Fax: 541-608-0746 The Medford plant (formerly Sabroso Company) employs up to 200 people. The facility operates approximately 10 months out of the year to turn fruit into single strength and concentrate purées and formulated fruit sauces that are used for conventional, organic, and baby food. The primary fruits processed in Medford include: apples, pears, apricots, peaches and strawberries.

<u>Woodburn Plant</u> 1440 Silverton Road, Woodburn, OR 97071 Phone: 503-982-9931, Fax: 503-982-2097 One of three processing facilities acquired in 2008 with the purchase of Sabroso, the Woodburn Plant makes ingredients for the food manufacturing industry including: fresh berry packs, formulated fruits, fruit preps, single strength purees, puree concentrates, and dried fruit flakes. Approximately 60-100 employees handle the following fresh fruits: apples, pears, Northwest strawberries, blueberries and blackberries.

Northwest Naturals 11805 North Creek Pkwy South, Suite A-104 Phone: 425-881-2200, Fax: 425-881-3063 Northwest Naturals LLC., a wholly-owned subsidiary, is located three hours north west of Selah near the heart of Seattle. Northwest Naturals is recognized as one of the industry leaders in the production of specialty blended, all natural, fruit juice concentrates, WONF concentrates, and frozen dairy-style bases, essences, and other value added fruit products.
